OUR ELAN YEAR IN REVIEW....

Dear ELAN Investigators

What a year this has been! 2020 will be remembered for obvious reasons but it was also a successful year for the ELAN trial. Let's look back at what happened!

23 new sites

Among them are our first sites in Japan (Osaka) and Israel (Jerusalem). **ELAN is now a global trial!**

350 new patients

A year of successful recruitment – despite a pandemic going around the globe!

1 DMSB- and 1 CEC meeting

And luckily, they gave us the green light to proceed!

1 major grant secured

This Swiss National Science Foundation grant secures the future of ELAN for the years to come!

1 new Core Team member

Welcome **Céline Reinbold**!

8 German sites reopened

After a regulatory odyssey, our German sites are now recruiting again!

1 online investigator's meeting

In June, around 80 participants joined us online to discuss and speed up the trial!

We already wish you a Merry Christmas and a Happy New Year. Stay safe and get ready for ELAN 2021!
Thank you again for all the work you have put in!

Best wishes from the whole ELAN Core Team
